

# New Year. New 100e Chromebook.

**SCHOOL'S IN SESSION, AND THE 100e CHROMEBOOK IS READY TO WORK.**

Engineered to earn perfect attendance, the 100e never takes a day off from learning. Its powerful, portable design features state-of-the-art learning tools that will suit any size school or budget. And thanks to its user-friendly interface, students and teachers can easily access Google Classroom, G Suite for Education and today's most popular education apps, all through their own personalized Google IDs. Plus, the Chrome Education license allows school administrators to control their entire fleet of devices, so safety and security always remain top of mind. And if you're worried about durability, don't be. The 100e was built to withstand even the most chaotic of classrooms. All-in, this machine was made to excel in every learning environment.

## A+ ACCESSIBILITY

From its easy-to-use interface to its powerful Intel GKL Processor or MTK Processor, the 100e is a total learning tool. Thanks to its unparalleled speed, there's never any lag time when it comes to learning; students can always depend on immediate access to their assignments and favorite education apps. And between Google Classroom and G Suite for Education, teachers can easily stay organized and promote a collaborative learning environment where students share work and stay connected all year long.

## BUILT FOR BUMPS

From class to class, hallways to backpacks to bus rides, the 100e was built with every busy student in mind. That's why its sleek design features rubber bumpers that can handle a drop up to 75 cm and reinforced ports for all those unintentional bumps along the way. When you factor in the mechanically anchored keys and water-resistant design, you've got a machine tough enough to last an entire school year.

## BIG FEATURES, COMPACT CHROMEBOOK

The 100e is light done right. Weighing in at only 2.68 lbs, the 100e is effortless to carry, but full of powerful possibilities. With up to 10 hours\* of battery life, students can spend more time on their schoolwork and less time worrying about charging their PCs. Plus, its anti-glare display helps put a little less eye strain on screen time.

\*Based on Google Chrome Power\_LoadTest, a battery run down test. For more information about Google Chrome Power\_LoadTest, visit [www.chromium.org](http://www.chromium.org). Test results should be used only to compare one product with another and are not a guarantee you will experience the same battery life. Battery life may be significantly less than the test results and varies depending on your product's configuration, software, usage, operating conditions, power management settings and other factors. Maximum battery life will decrease with time and use.

## Lenovo 100e Chromebook

Lenovo™

### PERFORMANCE

<b>Processor</b>	Intel® Intel GLK Performance Processor or MTK Performance Processor
